"I am more optimistic than ever regarding the future of humanity. Our vibrant and healthy workers have little to fear with COVID-19. If there is a silver lining, COVID-19 is relieving us of the chronically ill and elderly, who have burdened the U.S. health system for years, and consumed far too much of our GDP. For the balance of the population, with proper indemnification, I'm confident a vaccine will take care of the rest."

"Reducing then maintaining human population on earth at 500 million is OUR solemn obligation, in order to preserve the ecology of the planet. When you think about it, 500 million humans equates to the number of workers and managers required to sustain and grow OUR owned and operated companies and NGO's. In addition, 500 million humans provide for the vast majority of consumer spending and debt. As Artificial Intelligence is further integrated with bio-animatronics, this human figure MAY be adjusted accordingly."

-Bill Gates.

"You NEVER want a serious crisis to go to waste."

-Rahm Emanuel.

"Yes, there will be a New World Order, and it will force the United States to change its perceptions."

-Henry Kissinger.

"Because one way you get rid of Trump is a crashing economy, so PLEASE, bring on the recession!"

-Bill Maher.
