

"I agree to this Constitution with all its faults, if they are such: because I think a General Government necessary for us, and there is no Form of Government but what may be a Blessing to the People if well-administered; and I believe farther that this is likely to be well-administered for a Course of Years and can only end in Despotism as other Forms have done before it, when the People shall become so corrupted as to need Despotic Government, being incapable of any other."
Benjamin Franklin.

The love of power drives humans to weaken, destroy, and profit on the suffering of others and of nature.

The power of love drives humans to create and regenerate for the betterment of humanity and abundant life.

It is better to be castigated for the latter.

It's a BIG IDEA.

Distributed Power.

A core belief of transcendentalism is in the inherent goodness of people and nature. Adherents believe that society and its institutions have corrupted the purity of the individual and nature, and they have faith that people are at their best when truly "self-reliant" and independent.

"Confident that with YOUR help, man will be what he was born to be: free and independent."

"Does the INDIVIDUAL have the courage to really go along with the TRUTH?"

"One person can make a difference, and everyone should try."

"It is a crime for any citizen to shrink from controversy."

"When TRUTH represents an existential threat, then censorship is deployed."

"Those who make peaceful revolution impossible will make violent revolution inevitable."

John F. Kennedy.
