

In the globalist-owned and operated old republics and dictatorships, conventional thought, centered on survival of the fittest, has produced the accelerated development and deployment of technology highly capable of the destruction of humanity and earth. Among the latest destructive technological refinements are Directed-Energy Weapons (DEW), Hypersonic Guided Nuclear-Armed Cruise Missiles, High-Frequency Active Auroral Research Programs (HAARP) and increasingly virulent airborne viruses.

The vision of an earth population of healthy, well-informed, united, caring, loving peaceful people does not fit with the globalist model of many disunited, disenfranchised and despairing must suffer and be sacrificed for the few to prosper.

"Science is but a perversion of itself unless it has, as its ultimate goal the betterment of humanity."

"If you want to find the secrets of the Universe, think in terms of energy, frequency, and vibration."

"My brain is only a receiver, in the Universe there is a core from which we obtain knowledge, strength, and inspiration."

- Nikola Tesla.

Tesla's "thoughts and efforts during at least the past 15 years were primarily of a speculative, philosophical, and somewhat promotional character," but "did not include new, sound, workable principles or methods for realizing such results."

- John G. Trump, 1943.

In the New Model, sustaining synchronicity and self-actualization...for ALL of earth's humanity and abundant life...IS the policy!

The FUTURE...reimagined by the sparkling rivers, lakes, and oceans!

In the NEW REPUBLIC, imperfect people form a more perfect union, with Providence. Core principles of community-based prosperity, LOCAL commerce, supply, brotherhood, philanthropy, defense, disaster-prevention, distributed power, MEANS OF CONSTRUCTION, the Bill of Individual Rights, sustainability and resiliency, all calibrated to LOVE, JOY, GRATITUDE, AND PEACE!

In the New Model, all good people in the arena enjoy resuming the restoration of the Constitutional republic FROM JFK's point of interruption, can see for miles and miles, and enjoy Liberty in building out properties and the local means of production, with the capability to sow, nurture, grow, harvest, store, cook, engineer, design, program, automate, construct, process, raise, teach, counsel, hunt, defend, provide, debate, organize, compose, perform, worship, dance, laugh, love, celebrate, and sustain. Members enjoy a career in methods of spontaneous cooperation in the discovery and development of regenerative processes that achieve a well-defined whole!

ALL is not lost!

"There is one revolution tolerable to all men, all societies, all political systems:

Revolution by design and invention."

-R. Buckminster "Bucky" Fuller, 1968.

The TRUE measure of greatness of the individual, organization, society, and world IS NOT a focus on elevating war sales and margin, but rather a focus on elevating the marginalized into a world that works for all of CREATION!

A core belief of transcendentalism is in the inherent goodness of people and nature. Adherents believe that society and its institutions have corrupted the purity of the individual and nature, and they have faith that people are at their best when truly "self-reliant" and independent.

"Confident that with YOUR help, man will be what he was born to be: free and independent."

"Does the INDIVIDUAL have the courage to really go along with the TRUTH?"

"One person can make a difference, and everyone should try."

"It is a crime for any citizen to shrink from controversy."

"When TRUTH represents an existential threat, then censorship is deployed."

"Those who make peaceful revolution impossible will make violent revolution inevitable."

## John F. Kennedy.
