

Coronavirus infections WILL NOT officially increase in the U.S....as few test kits exist and effective testing and tracking is not performed, therefore the count shall remain low.

"No need for worry or panic, as it [coronavirus] effectively shuts down the lower respiratory tract, primarily retiring the elderly. Consumer spending shall not be impacted. Company's shall faithfully continue to buy back stock with low interest leveraged corporate bond debt, providing a significant boost to earnings per share and stock market indexes. Additional benefits include reducing government and company retirement obligations, and the effective thinning of the elderly human population, for the preservation of earth. Consideration of death panels is no longer a discussion requirement."

-Bill Gates.

NO ARMY can stop an idea whose time has come.

A core belief of transcendentalism is in the inherent goodness of people and nature. Adherents believe that society and its institutions have corrupted the purity of the individual, and they have faith that people are at their best when truly "self-reliant" and independent.

"Confident that with YOUR help, man will be what he was born to be: free and independent."

"Does the INDIVIDUAL have the courage to really go along with the TRUTH?"

"One person can make a difference, and everyone should try."

"It is a crime for any citizen to shrink from controversy."

"When TRUTH represents an existential threat, then censorship is deployed."

"Those who make peaceful revolution impossible will make violent revolution inevitable."

John F. Kennedy.

Key Missteps at the CDC Have Set Back Its Ability to Detect the Potential Spread of Coronavirus

The CDC designed a flawed test for COVID-19, then took weeks to figure out a fix so state and local labs could use it. New York still doesn't trust the test's accuracy.

The END march of Self-Organizing Criticality.

Endogenous:

- 1: growing or produced by growth from deep state; "endogenous deep state corruption."
- 2a: caused by factors inside the organism or system; "endogenous wildfires ignited by antiquated electrical distribution gear."
- 2b: produced or synthesized within the organism or system; "an endogenous self-mutating lab virus 'inadvertently' released producing a stealth pandemic."
