

NO ARMY can stop an idea whose time has come.

"The care of human life and happiness, and NOT their destruction, is the first and only object of good government. — Thomas Jefferson.

A core belief of transcendentalism is in the inherent goodness of people and nature. Adherents believe that society and its institutions have corrupted the purity of the individual, and they have faith that people are at their best when truly "self-reliant" and independent.

"Confident that with YOUR help, man will be what he was born to be: free and independent."

"Does the INDIVIDUAL have the courage to really go along with the TRUTH?"

"One person can make a difference, and everyone should try."

"It is a crime for any citizen to shrink from controversy."

"When TRUTH represents an existential threat, then censorship is deployed."

"Those who make peaceful revolution impossible will make violent revolution inevitable."

John F. Kennedy.

Constitutionalists ARE the lifelines.

I think it's time to get ready.

March 14, 2020.

.....starts with one person, one relationship, one family, one neighbor, one neighborhood, one village, one community, one city, one state, one nation, at a time...simultaneously.

China confirms coronavirus is airborne

The deadly coronavirus is airborne, a Shanghai official has confirmed.

Droplets

Droplet verses airborne infection

- COVID-19 virus features:
- 0.13 micron particle size.
- Airborne: meaning it can drift through the air for an extended period of time and cause infection if breathed in.
- Respiratory Droplets
- Surfaces: on average, researchers say this family of viruses can survive between four and five days on various materials like aluminum, wood, paper, plastic and glass.
- Carriers asymptomatic.

*Death Rate = (number of deaths / number of cases) = probability of dying if infected by the virus (%). This probability differs depending on the age group. The percentages shown below **do not have to add up to 100%**, as they do NOT represent share of deaths by age group. Rather, it represents, for a person in a given age group, the risk of dying if infected with COVID-19.

AGE	DEATH RATE confirmed cases	DEATH RATE all cases
80+ years old	21.9%	14.8%
70-79 years old		8.0%
60-69 years old		3.6%
50-59 years old		1.3%
40-49 years old		0.4%
30-39 years old		0.2%
20-29 years old		0.2%
10-19 years old		0.2%
0-9 years old		no fatalities

<https://www.worldometers.info/coronavirus/coronavirus-age-sex-demographics/>

- Death rate **higher** among those with **chronic** heart, lung, vascular, hypertension, cancer diseases **OR** diabetes.
- **CDC: U.S. estimated fatalities range 200,000 – 1,700,000.**

Econ DEFCON Level	Description
1	Economic demise is imminent
2	On the verge of economic disruption
3	Jitters rising, financial conditions tightening
4	Jitters rising
5	Complacency
