**Dead accurate.** Any place giving refuge to illegal aliens is an open invitation for the worst of the worst to come from around the world to live free of fear of being deported. Vigilantes from foreign countries will cross the border and seek refuge in these places. Illegal immigrant Women will fly over or cross the border pregnant to give birth and get benefits for herself and her new citizen baby. Not to mention free healthcare, child birth, wic, and you're even allowed to get your drivers license, how's that? Sounds like paradise for any non citizen. As California plunges to the highest poverty state with 1.5 trillion in debt. Crumbling dams, roads, and bridges. **I'm Governor Jerry Brown, and I approve this message.**
