

Prescient: The emerging collapse in central energy, political, and global market operations is accelerating. Over the next decade, those who will prevail and prosper in peace are those with local thriving markets and the local means of energy and food production. Same message that Bucky Fuller articulated in 1969 in the Whole Earth catalog and in the Operating Manual for the Spaceship Earth. YOU will come to understand the full meaning of this over the next 10 years.

NO ARMY can stop an idea whose time has come.

A core belief of transcendentalism is in the inherent goodness of people and nature. Adherents believe that society and its institutions have corrupted the purity of the individual, and they have faith that people are at their best when truly "self-reliant" and independent.

"Confident that with YOUR help, man will be what he was born to be: free and independent."

"Does the INDIVIDUAL have the courage to really go along with the TRUTH?"

"It is a crime for any citizen to shrink from controversy."

"When TRUTH represents an existential threat, then censorship is deployed."

"Those who make peaceful revolution impossible will make violent revolution inevitable."
