

NO ARMY can stop an idea whose time has come.

A core belief of transcendentalism is in the inherent goodness of people and nature. Adherents believe that society and its institutions have corrupted the purity of the individual, and they have faith that people are at their best when truly "self-reliant" and independent.

"Confident that with YOUR help, man will be what he was born to be: free and independent."

"Does the individual have the courage to really go along with the TRUTH?"

"It is a crime for any citizen to shrink from controversy."

"When TRUTH represents an existential threat, then censorship is deployed."

"Those who make peaceful revolution impossible will make violent revolution inevitable."

Jen Gennai is the head of "Responsible Innovation" for Google, a sector that monitors and evaluates the responsible implementation of Artificial Intelligence (AI) technologies. In the video, Gennai says Google has been working diligently to "prevent" the results of the 2016 election from repeating in 2020:

*"We all got screwed over in 2016, again it wasn't just us, it was, the people got screwed over, the news media got screwed over, like, everybody got screwed over so we're rapidly been like, what happened there and how do we prevent it from happening again."*

*"We're also training our algorithms, like, if 2016 happened again, would we have, would the outcome be different?"*
